# Our 4th Annual

# dentistry from the heart Event!

**Date: May 20, 2017**  
Arrive early—  
Registration starts  
at 6:30am

*Patients are encouraged to arrive early and dress appropriately for the weather. We will provide water, chairs and a tent to sit under.*

*People in need will be seen on a first-come, first-served basis.*

**O**ur owner dentists, Dr. Long Huynh and Dr. Mai Huynh-Le, have a heart; a heart for their patients, their staff and their community they call home. **Not only do they empower employees with leadership meetings, trainings and the like, they empower those around them who desperately need dental care but can't afford it, through events like this.**

**are anticipating serving about 300 people at the event on May 20th and need 100 volunteers to make this happen.**

The undertaking is much bigger than the means of one practice, so dentists, hygienists, dental assistants and everyday people from as far away as Tampa donate their time and talents. It takes a lot of effort and people to put on an event like

this so the call is going out to dental professionals who can donate any amount of time to this year's event. However, the call for help doesn't stop there.

**We are still looking for volunteers and sponsors ranging from donating food, drinks and monetary contributions to helping take care of those Waiting.** A band

For the past three years, our practice has opened its doors to anyone 18 or older in the community in need of an extraction, a filling or teeth cleaning. We

will be on site for entertainment to make the event more fun and festive. Some even set up booths the day of the event. We look forward to seeing you there!

Friday: . . . . . 9am – 7pm  
Saturday: . . . . . 9am – 3pm

**It's not often you hear of someone who actually enjoys going to the dentist...**

# Meet Lindsey!

*(Article Courtesy of Gina Birch from Living Local Magazine.)*

**L**indsey claims to have problems with her teeth and gums due to “bad British dentistry from a long time ago.” **Her husband had impressive results with treatments at the hands of Dr. Campbell, so when it was time for her to take action, she called Park Family & Cosmetic Dentistry for a consultation.**

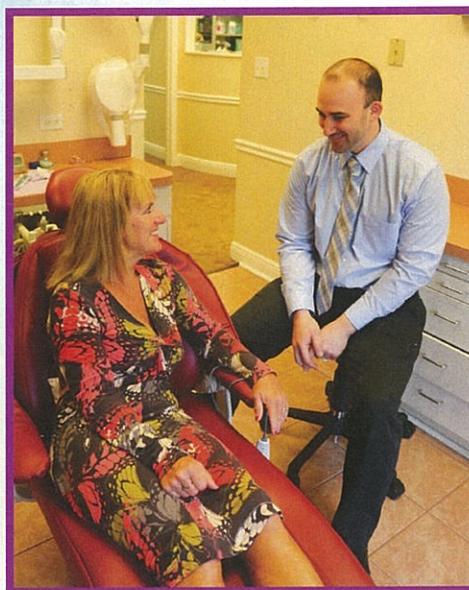

Lindsey was sold from the minute she walked through the door. She says the office was, “spotless, very clean and very calming.”

Facing extensive treatment on her teeth and gums, this kind of atmosphere was important to Lindsey. She continues, **“All of the staff just seemed devoted to making everyone feel at home. A number of people said the founders of the practice go to extreme lengths to make sure the people they hired were the kind that fit into the atmosphere and business they conceived.”**

Fearing gum skin grafts and crowns, she says, “Dr. Campbell convinced me that transformative treatment would be easier to protect gums and would look better. He’s

always trying to be in the forefront of modern treatments.” Her procedure took some three hours to complete.

**Lindsey said she listened to music, turned on the back massager in her chair, looked out the window at the water and the time flew by. She says, “For three hours of what should have been discomfort, it wasn’t bad at all. It went smoothly and painlessly.”** She laughs, “No pain involved is a prerequisite for me.”

She also wanted results that looked natural.

Today she says, **“I have much fewer problems with my gums and I can finally smile properly because I don’t feel that there is anything unsightly about my mouth. I feel more confident in the condition of my teeth and mouth in general.”**

Not only was Dr. Campbell precise and attentive, Lindsey said she appreciated his follow up and the feeling that if she had any problems, she could call him at any time. The staff even celebrated her results with toast of sparkling water. It’s those little things that make a difference to her and so many other patients, especially when facing what is often perceived as an unpleasant procedure in your mouth.

Lindsey’s advice to anyone looking for help with improving his or her smile, teeth and overall oral health, call Park Family & Cosmetic Dentistry. She says, “I think that they are very honest and not just out to make a buck. They really do care if you are pleased with your results.”

**Our Charity Committee welcomes anyone who would like to participate in any of our events!**

Even if you can't physically be there we always welcome monetary donations as well!

**Here are some of our upcoming events:**

- **April 7th & 8th – Relay for Life**
- **May 20th – Dentistry From the Heart**
- **June 24th – Beach Cleanup**

If you would like more information or would like to participate in any of these events, please call us!

**We're excited to make a difference in the community!**

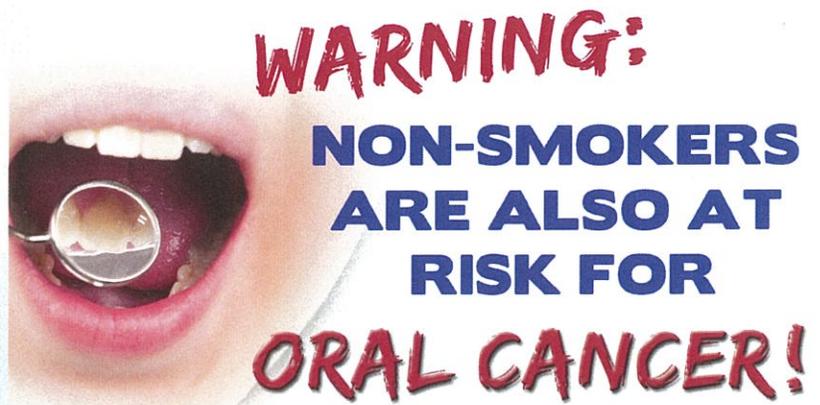

*"Best Experience Ever!!!!"*

"From the moment I contacted Park Family & Cosmetic Dentistry my experience was exceptional. I was able to get an appointment to fit into my time schedule. I knew I needed to see Dr. Long because of my dental needs.

Dr. Long is honest, gentle and humble. The whole experience was like being in a Spa—from the gift and personalized card on my MASSAGING dental chair to my view of a ZEN garden.

I am recommending Dr. Long and Park Family Dental to ALL my friends. In fact, some of my friends are already patients of his dental practice and they felt the same exuberance as I do about Dr. Long."

*-VICTORIA C.*

**A**ccording to the *American Dental Association*, "Only half of all patients diagnosed with oral cancer survive more than five years." **And it strikes about 35,000 Americans every year!**

Contrary to popular belief, **oral cancer can occur without any known risk factors, such as tobacco or alcohol use or excessive sun exposure.**

While the majority of cases occur after age 50, over the past decade there has been a **sharp increase in the number of oral cancer patients under the age of 30**—again, with no identifiable risk factors.

That's why we *urge* you and your family to schedule routine dental exams with us twice a year!

**GET THE PEACE-OF-MIND YOU DESERVE!**

Oral cancer can affect your lips, gum tissue, inside cheek lining, salivary glands, tongue and hard or soft palate.

In its earliest stages, oral cancer can appear as tiny white or red spots. Advanced symptoms may be swelling, a sore that bleeds easily or doesn't heal, difficulty swallowing, or persistent hoarseness.

Any mouth sore that doesn't go away within two weeks should be evaluated immediately.

Oral cancer can spread. Delays can lead to chronic pain, irreparable facial disfigurement following surgery—and can be fatal. **Early detection can make all the difference in your health, quality of life, and appearance.**

If you notice anything unusual, pain, tenderness or numbness anywhere in your mouth or lips, please schedule an appointment with us, immediately.

It may be nothing serious but the only way to know if a warning sign is benign, pre-cancerous or cancerous is through an oral cancer screening. Studies show that survival rates increase significantly when oral cancer is detected and treated early. ❖

**Don't Let "Tooth Loss" Age Your Smile And Steal Your Fun!**

Do missing teeth cause you to hide your smile? Is it stopping your from enjoying your favorite foods? Or are you ready for a better alternative to soaking tooth replacements in water at night? *Then it's time for a change!*

We realize dealing with tooth loss can impact your life on many levels. There are **pros and cons to tooth replacement** options. We'll go over your choices and make recommendations on the best possible long-term solution for you.

According to *Dear Doctor* dental magazine, "Those with dental implant tooth replacements judge their overall psychological health improved by 80% compared to their previous state of wearing traditional, removable dentures."

**Don't go another day with missing teeth.** We have exactly what you need...a personal touch with compassionate, gentle care. **Call for your appointment TODAY!**

**Yours for Dental Health,**

*Mai Huynh-Le, DMD  
Long Huynh D.M.D.*
