### Our Beloved Patients,

We wanted to take this opportunity to show our commitment to you, our team and the continuing growth of our practice. With that being said, we're excited to announce that PFCD is continuing to grow with the addition of a new specialist to our Park Family. Periodontist Dr. Miguel Jusino, will be joining PFCD in October. As we strive to continue to provide you with the best care possible, we have no doubt that Dr. Jusino will be an amazing asset to our staff. His passion for dentistry started at a young age, having been exposed to the dental field early-on, as both parents were dentists themselves.

Dr. Jusino graduated from the University Of Puerto Rico School Of Dental Medicine in 2008. Subsequent to his completion of dental school Dr. Jusino served in the US Army for 10 years. During his service he completed an Advanced Education in General Dentistry residency program at Fort Sill in Oklahoma. In 2015 he completed his certification in Periodontics from the challenging US Army Advanced Education Program in Periodontics in Fort Gordon, Georgia and also earned a Master's Degree in Oral Biology from Georgia Regents University.

Most recently, Dr. Jusino served as Chief of Periodontics and as Assistant Professor of Periodontics for a two-year Advanced Education in General Dentistry residency program at Fort Hood, Texas. There he taught residents a conventional and modern approach to treatment in periodontics. He also addressed the periodontal and implant needs of soldiers.

Dr. Jusino is a Diplomate of the American Board of Periodontology. He is certified in IV sedation, Laser-Assisted New Attachment Procedure - LANAP®, and Wilkodentics® - Periodontally Accelerated Osteogenic Orthodontics (AAO)™. He is a member of the American Academy of Periodontology, American Dental Association, Southern Academy of Periodontology, and Florida Association of Periodontist. Dr. Jusino honorably joined the Army Reserves in the summer of 2018 to move to the city where his wife Jennifer was born in Naples, Florida. This move was made in hopes to live out their dreams of raising their daughters, Ariana and Zoé at the beach, surrounded by family and friends.

We hope you learned a little bit more about Dr. Jusino and know that we only invest in those that take pride in their work. If you or your family have any periodontal needs we promise that PFCD will now be capable of taking care of them with the utmost care and up to date technology!

With love,

Dr. Mai Huynh-Je & Dr. Jeng Huynh

# PARK

Family & Cosmetic  
DENTISTRY

Established 2009

Here at Park Family & Cosmetic Dentistry we take pride in offering our patients a safe place to have dental work. We are always looking to improve our practice, facilities, equipment and knowledge. As a team, we want to take strides in keeping you comfortable, happy and cared for, which is why we will be adding a state-of-the-art digital platform for local anesthesia to our practice.

The Wand Computer Assisted Anesthesia System will help better your overall experience at PFCD. The device provides a higher level of comfort, to the patient, due to a device significantly less frightening than a syringe. While dental anxiety is a common issue among patients The Wand's pen-like hand-piece appearance reduces uneasiness when approaching your face. This Wand also gives doctors a firm grip for unparalleled control of the unit. The best

part about this platform is the ability for our doctors to localize anesthetic to a specific area which will help eliminate unnecessary numbness of your entire mouth. This allows for patients to return to work without a numb face. The local anesthetic also allows for immediate

treatment, meaning less wait time for you! Doctors control the flow rate, speed and pressure of the anesthesia during the injection. The Wand's speed will be tailored to each patient's specific case, making sure to never over administer what is needed for each injection type.

Overall, we plan to continue to exceed your expectations when it comes to our quality of care. PFCD is patient centric and your comfort is clearly our priority from the moment you enter our doors. We are committed to providing you with the utmost care and for your continuous loyalty for years to come!

# PFCD 2018 Office Olympics

SERVICE

LOVE

COMMITMENT

INTEGRITY

PRIDE

It was a day like no other as the 2018 PFCD Olympic Office

games commenced.

On Tuesday September 4th the team walked in for what they thought was a normal two-hour training day. Stumped to find we wouldn't be watching videos, filling out surveys, or listening to a lecture the team sat back in confusion. We sat in a circle staring at each teammate for some hint as to what was going on. Suddenly Heather, one of our amazing hygienists, barged through the door dressed in her athletic best. As she rounded the room she high-fived each teammate. Heather approached the PFCD Olym-

pic commencement candle, as music began playing, she explained the rules and the room roared with cheers! This team was expecting just another Tuesday; only to find we'd be competing in the biggest sporting event of this work year!

We were each given a team categorized by the PFCD values of service, love, commitment, integrity and pride. Together we hurdled hula hoops, curled (on a much smaller scale) and each won gold medals! The PFCD family worked as one towards the

ultimate awarding of ICE CREAM!

Topped with all the fixings you could think up! As a team family

we bonded and rejuvenated our spirits for the rest of the year! There was no diversity, no drama, just some good old-fashioned sportsmanship that flooded our office. We're blessed to come together so fluidly as a team, so we can better care for you!

Start practicing your Curling skills for PFCD Olympics 2019!
