

15th Annual Patient Appreciation Celebration

April 12th was a day of festivities as Park Family & Cosmetic Dentistry celebrated their 15th year serving the community. Over 150 people were in attendance, and the camaraderie was strong as people sampled dishes from over 15 different countries, which were representative of our team. Our diversity is our strength. As we see patients from all over the world, we couldn't think of a better way to celebrate our patients. Several patients who have been with us from the beginning were recognized and gifted an Oral B I/O Electric Toothbrush. Their 15 years of loyalty have meant the world to us, and we would not be the practice we are today without your unwavering support!

Tooth Booth Reviews

I was greeted with family hospitality! Every staff member was kind and helpful. I was given a welcome gift, shown the facility, and nestled into a dental chair that gave me the option of heat, massage, or both. Looking out a big picture window, I saw a very nice river, where I watched a medium-sized fish jump four times out of the water, flying through the air more than 20 feet. Who could ask for more? But, wait, there was more, Dr. Long, who brought years of experience to my problem teeth. After my visit, I realized that Dr. Long was the best dentist I had ever seen. He was kind, gentle, insightful, and trustworthy. I knew my teeth were going to be in highly experienced hands. I will post again when my work is completed. -Elaine H.

I was given an emergency appointment right away. The care I received from Dr. Macedo and the team was outstanding and highly professional. The doctor and her team worked diligently and were very concerned about my comfort. I left there 100% better than when I arrived. I am very appreciative of the high caliber of care I received. -Jane Z.

Introducing Ceramic Implants!

Zirconia (ceramic) implants are excellent alternatives to metal implants and PFCD is thrilled to offer this new option to our patients! Esthetically pleasing, strong, and long-lasting, ceramic implants are biocompatible as they do not release any particles into the gums, eliminating the possibility of intolerance or reaction to the implant. Able to restore missing teeth in almost any situation, your function and smile will feel and look natural, and you can start enjoying the foods you miss eating. You can smile with confidence knowing your smile looks great, feels great, and is great for the body!

Drs. Long and Macedo have extensive training in placing Zirconia implants and would love the opportunity to meet with you to see if you're a candidate for this restoration option. For a limited time, patients who select to proceed with Zirconia implants will receive \$200 off the implant placement and \$200 off the implant restoration! That's a savings of \$400!

Call (239)206-1500 and ask if you're a candidate for ceramic implants today!

FOR 2

WIN A
FREE WEEKEND CRUISE
TO THE BAHAMAS

Ask our Team how you can enter for a chance to win your next vacation valued at \$2000!

Winner will be announced
December 3, 2024

No need to be present to win

PFCD is always learning and growing to better serve our patients!

Early March was an opportunity for many of our doctors and a few team members to bond and learn as they spent a weekend in Orlando experiencing leadership expert John Maxwell's Day 2 Grow! Whether it was Deion Sanders, Jamie Kern Lima, John Maxwell himself or any of the other amazing speakers, our PFCD Team was engrossed in the plethora of information they received on leadership, personal growth, relationship building and communication.
